**MS. LIZZETE P. TERANIA**

CEO

Softline Services International Philippines, Inc.

Makati, Metro Manila

Dear Ms. Terania:

I was excited to come across the IT specialist position at Softline Services International Philippines, Inc. I graduated from Technological University of the Philippines-Taguig campus with the degree Bachelor of Science in Information Technology. I learned and developed numerous skills throughout my time at TUP, including application programming, web development, robotics, autocad, etc. I'm looking forward to count as an IT Specialist among my various achievements. I would love the opportunity to bring these skills and the same quality of service to Softline Services International Philippines, Inc.

Respectfully yours,
